

Avery Ember Day

Where vision finds form.

Brand Philosophy

Every project begins as a conversation. Listening closely and designing with care turns an idea into a clear, honest visual identity that people remember.

Mission

Mission Statement

Thoughtful, well-crafted design that gives each client's vision clarity, purpose and character, so they can be proud of their brand and see their ideas come to life.

Tagline

Where vision finds form.

Values

Empathy

Every client's vision is personal. Listening comes first: their style, their story, their goals. The finished design looks and feels like them.

Positivity

Every project starts with optimism. A tricky brief is a chance to grow, and a hopeful outlook helps clients see new possibilities. The goal is work that goes beyond what they hoped for.

Commitment to Growth

Each project is a chance to do better than the last. Steady practice and a love of the craft keep the work sharp, skilled and full of heart.

Personality

Resilient

Hard problems get patience and fresh ideas. Each project is seen through with steady determination.

Adaptable

Plans stay flexible. Feedback shapes each round of the design until the final piece matches the client's vision.

Understanding

Care and attention spot a client's needs early, often solving a problem before it shows up.

Warm

Every collaboration feels welcoming and supportive, a cozy space where clients feel heard, valued and confident.

Voice and Tone

How Avery Ember Day speaks, in words and in tone, is set out on the Brand page of the website, so every message and piece of copy sounds like the same studio.

See it live

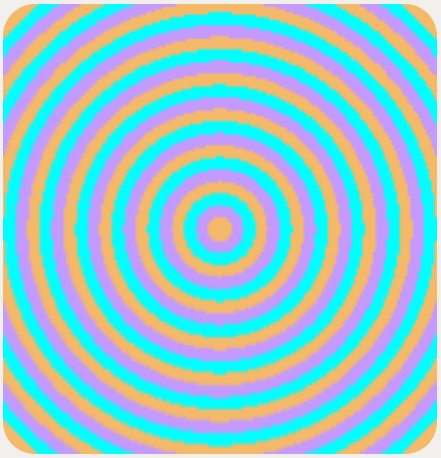

Brand page, **Brand Voice and Tone**: averyemberday.com/portfolio/brand

Moodboard

Soft, bright and a little dreamy. Soap-bubble shimmer, round shapes that lean on each other, cool blue light with pops of neon and gold, and cozy dark rooms.

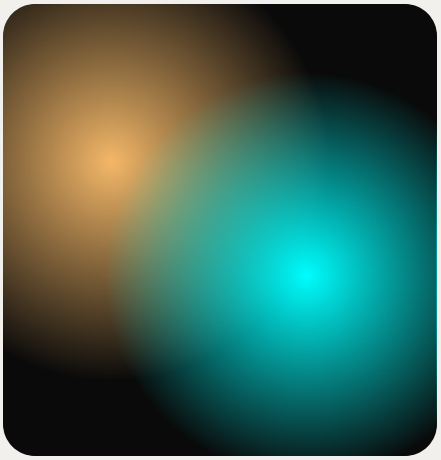

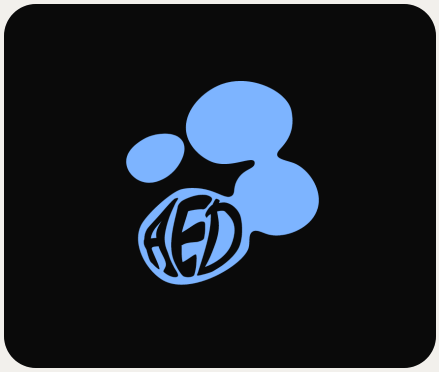

LOGO

Final Design

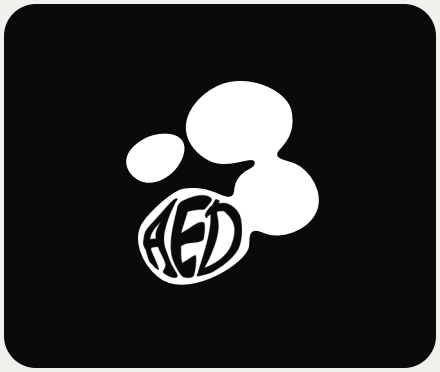

The bubble logo is a cluster of soft blue bubbles, with the initials A E D hand-lettered in the lowest one. It comes in two versions: the Primary logo, with the initials, and the Icon Mark, the bubbles alone. Each comes in blue, black and white.

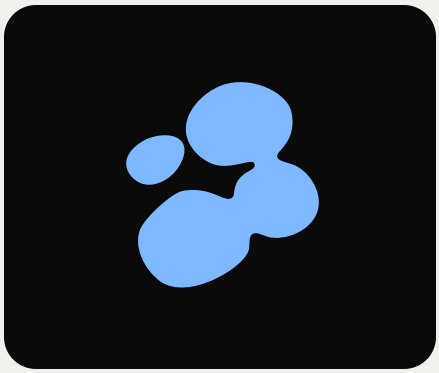

Primary, blue on dark

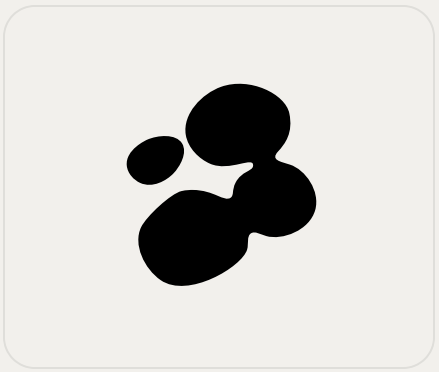

Primary, black on light

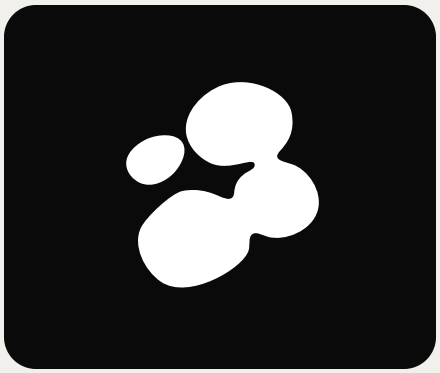

Primary, white on dark

Icon Mark, blue on dark

Icon Mark, black on light

Icon Mark, white on dark

Clear Space

Give the logo room to breathe. Keep a clear space around it, free of text, images and other graphics. The unit is the width of the small bubble on the left, which is 30% of the logo's full width.

Shaded area: keep this clear on every side. One unit equals the small bubble's width.

Sizes

Primary

Smallest size: 64px. Below that, the AED lettering stops reading.

Icon Mark

Smallest size: 24px. Below that, the bubbles begin to merge.

Color variations

- **Blue logo.** The everyday logo for digital and print, where the brand's personality should come through: web headers, social media and marketing pieces. Place it on dark backgrounds.
- **White logo.** Sits on dark backgrounds: black, deep gray or any dark color with strong contrast.
- **Black logo.** Sits on light backgrounds, such as white, cream or light gray, and is the choice for one-color printing.

Logo Usage

Do

- Use only the logo versions in this guide.
- Keep the clear space around the logo.
- Place the logo on backgrounds with strong contrast.
- Scale the logo evenly, keeping its shape.
- Use the white logo on dark backgrounds and the black logo on light ones.

Keep it intact

- Keep the logo's proportions.
- Keep the logo's own colors, with no gradients or effects added.
- Keep the bubbles and lettering where they are drawn.
- Choose calm, high-contrast backgrounds; busy photos and patterns hide the bubbles.
- Keep the logo flat, without shadows, outlines or filters.
- Keep every bubble; cropped or missing bubbles break the mark.
- Use the supplied files every time; a redrawn logo drifts.

Correct: blue logo on dark, as supplied.

Stretched or squashed.

Recolored.

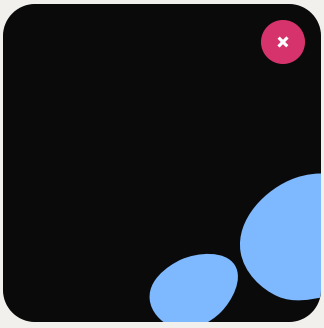

Rotated.

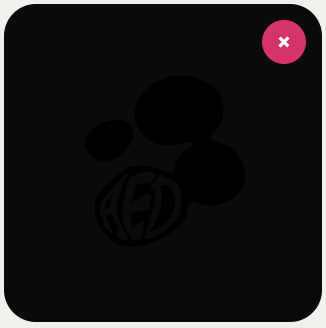

On a busy background.

With shadows or glow.

Cropped.

Black logo on a dark background.

Color

The palette is soft and bright. Brand Blue leads, with Accent, Neon and Gold for pops, and the spectrum for shimmer. Values are the dark-theme base, the brand's home colors.

Brand Blue
Main brand color, headings and accents

HEX #9ACDFF
RGB 154, 205, 255

Accent
Links, focus and highlights

HEX #CC44FF
RGB 204, 68, 255

Neon
Small pops of light

HEX #00FFFF
RGB 0, 255, 255

Gold
Warm highlights and calls to notice

HEX #F5B96A
RGB 245, 185, 106

Dark BG
Main background for the blue and white logo

HEX #0A0A0A
RGB 10, 10, 10

Light BG
Main background for the black logo

HEX #F2F0EC
RGB 242, 240, 236

Logo Blue
The bubble logo's own color

HEX #7EB8FF
RGB 126, 184, 255

Spectrum 1	Spectrum 2	Spectrum 3	Spectrum 4	Spectrum 5	Spectrum 6
#D99AFF	#C49AFF	#F5B96A	#9ACDFF	#5AE3F0	#00FFFF

Print note. Neon and Accent are brighter than ink can print. For print, use the closest CMYK match and check a proof before a large run. CMYK values are pending a proof.

TYPOGRAPHY

Typography

Three typefaces, each with its own job, keep every page clear and consistent.

DISPLAY

Sriracha

Big, friendly moments: the brand name and page titles. Short words, large sizes.

HEADINGS

Outfit

Section titles and labels, usually SemiBold (600). Light to Bold (300 to 700).

BODY

Inter

Paragraphs, captions and everything people read at length, usually Regular (400). Light to SemiBold (300 to 600).

Business Card

Waiting for the business card design

Card front and back, print size and QR code go here once the design is finished.

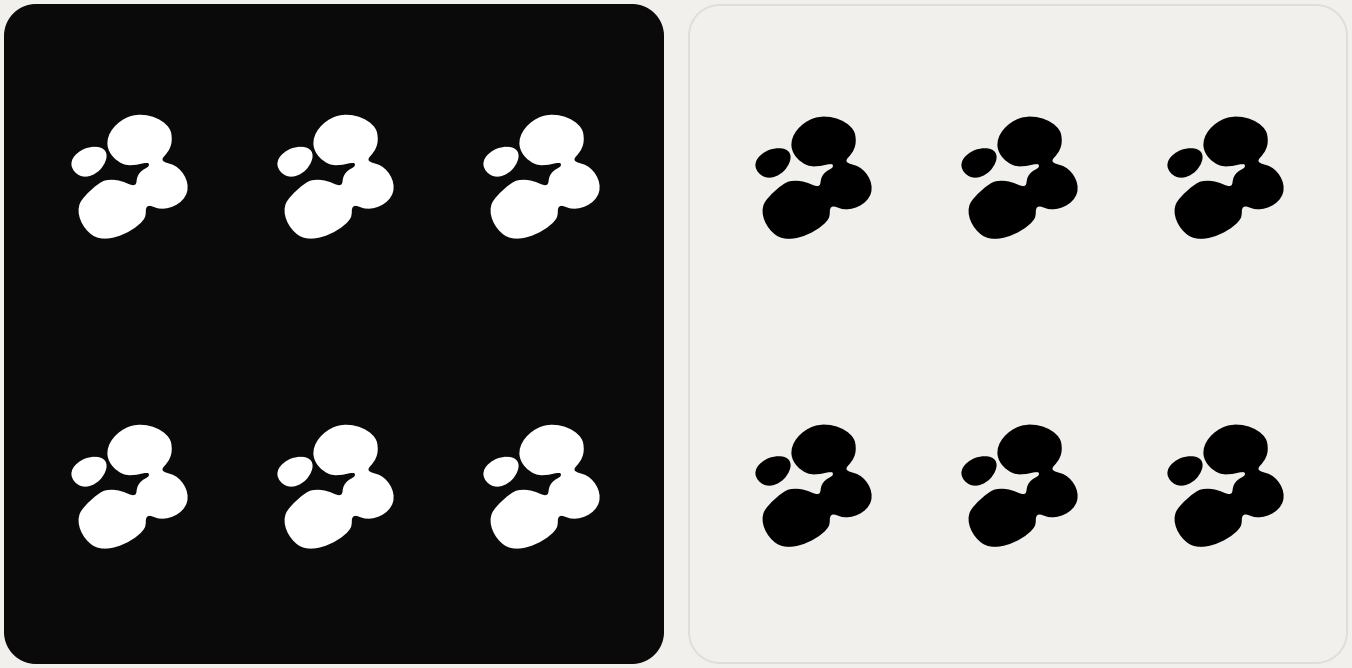

Stationery

One clean layout for letters, invoices and other documents. The header holds the Primary logo with plenty of white space.

Backdrops

A repeating logo pattern for events and presentations. The tile scales to any size and keeps the brand present while staying in the background.

Social Media and Icons

Favicon and app icons

The Icon Mark, sized for the smallest spaces. Simple round shapes and strong contrast keep it recognizable down to 24px.

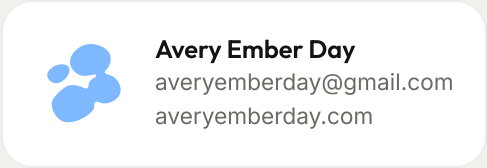

Social media post

Email and Contact

Email signature

A simple, accessible email signature with the logo and contact links. It works in every major email app, on phone and desktop.

FOOTNOTE

Previous Retro Brand

The 2025 college guide's brand, which the bubble brand replaces.

Full

Icon

Favicon

The retro logo was a coral circle and a teal triangle around "Avery Ember" in a pink script, with "DAY" in caps. It carried the brand through its first year.

How the marks evolved

First iteration

The first personal brand mark: a triangle, chosen for its balance and clarity, with the top-left corner removed to make a simple icon that scales well.

Second iteration

The triangle became a right-angled form inside a circle, a steadier, more balanced mark. The contrast made it stronger and easier to read at every size.

Bubble logo (current)

Soft, round shapes and a single calm blue. It keeps the AED initials and the idea of a full mark and a small icon, and feels friendlier and lighter at every size.
